

Thursday February 12th Scrum Meeting

Location: Bahen Centre

Time: 11AM - 12PM

In Attendance:

- Caroline Caetano
- David Chen
- Shudman Chowdhury
- Alexei Darmin
- Lucas Lima
- Antonio Raposo
- Eric Scott
- Haris Shoaib

Topics Discussed:

- Framework
 - Based on our team's web development experiences as well as personal interest, we decided on using Node.js as a framework for building our application on
- Environment
 - Node.js is not too much trouble to setup, but a common environment to use may make it easier to demo or run each release on
 - We decided on setting up an Ubuntu virtual machine with Node.js setup and our application so that we can demo the product from this environment

Action Items:

By Tuesday February 24th,

- Each team member will install Node.js on their laptop and review Node.js documentation
- Eric will set up an Ubuntu virtual machine with Node.js to provide an environment for testing
